What is Tricot Fabric ?

The word "Tricot" comes from the French word "Tricoter," which means "Knitting." This fabric is made using a flat knitting machine that gives it a smooth feel, resists wrinkles, and helps prevent threads from coming loose.

Key Properties of Tricot Fabric ?

Tricot fabric offers excellent shape retention while still being flexible and breathable. It helps reduce static electricity and provides a comfortable feel during movement. Thanks to these qualities, tricot is ideal for making activewear or comfort-focused clothing that maintains its form and fits beautifully.

Structure of Tricot Knitting

Tricot fabric is made in a way that's similar to weaving. The yarns are lined up vertically, and machines knit them into patterns. The result is a smooth fabric that doesn't wrinkle or shrink easily and holds up well after washing. It's very versatile and can be used for underwear, women's tops, pajamas, sportswear, and home items like pillowcases and bedsheets. Tricot is also used in furniture and car interiors—such as sofa covers and seat upholstery.

Tricot Fabric

Tricot is a type of knitted fabric known for its unique vertical knitting method (Warp Knitting). This gives the fabric excellent stretch, high durability, and resistance to wrinkles and shrinkage. It also dries quickly and withstands frequent washing. Tricot fabric is highly versatile and used in various industries such as apparel, bedding, and furniture.

Apparel :

Home Textiles :

Others :

Flannel fabric

Flannel fabric is a soft, warm fabric that feels gentle against the skin. Made from 100 % polyester on warp-knitting machines, it stays fluffy yet strong. You'll often find it in blankets, casual clothes, stuffed toys, and sofa covers because it looks good, lasts a long time, and is reasonably priced.

Warp Knitting

Warp knitting is a specialized technique for making fabrics such as tricot and flannel. Our precision machines knit the yarns vertically, giving the fabric exceptional strength, long-term durability, and shape retention after many washes. The structure also breathes well, keeping the fabric comfortable in hot or humid conditions. Its resistance to stretching and shrinking further boosts product longevity. As a result, warp-knitted material offers woven-like smoothness alongside lasting performance.

Tricot

Tricot fabric is divided into 6 main types.
Each with different properties and uses.

01. Tricot Fancy^(TF)

Tricot Fancy

- **Characteristics :**

Combines two or more fabrics; soft, breathable, durable, wrinkle-resistant, quick-drying, snag-free.

- **Applications :** Dress shirts, uniforms.

02. Tricot Mesh^(TM)

Tricot Mesh

- **Characteristics :** Small pores, lightweight, strong, and highly breathable.

- **Applications :** Mosquito nets, linings for sports bags and dive bags, laundry bags.

03. Tricot Half^(TH)

Tricot Half

- **Characteristics :** Smooth on both sides, moderate stretch, good shape retention and recovery.

- **Applications :** Lamination backing, mattresses, jackets, sportswear.

04. Tricot^(TS) Satin

Tricot Satin

- **Characteristics** : Soft and silky, silk-like feel, wrinkle-resistant, holds its shape well.
- **Applications** : Fashion garments, apparel, lingerie, linings.

05. Tricot^(TB) Brush

Tricot Brush

- **Characteristics** : Fluffy surface; strong when bonded with vinyl.
- **Applications** : Sportswear such as tracksuit pants and tops, bag linings, furniture upholstery padding.

06. Tricot^(VT) Velvet

Tricot Velvet

- **Characteristics** : Short pile on the front, smooth back, dense and luxuriously soft.
- **Applications** : Fashion garments, plush toys, sofa upholstery, curtains, home décor.

Faux Rabbit Fur Fabric

Faux rabbit fur fabric is fluffy and ultra-soft, closely mimicking real rabbit fur. It looks luxurious, feels cozy, and provides excellent warmth. With dense, fine fibers and a subtle sheen, it adds a premium touch to any design. Ideal for coats, shawls, cushions, plush toys, and various home décor items.

Sustainability Recycled

How it drives the retailing industry trend?

 Save our planet | 20 to 28 bottles at a time

 =  **20**
PET Bottles
1 garment piece
is composed of 20 (600cc plastic bottles)

 =  **28**
PET Bottles
1 blanket piece
is composed of 28 (600cc plastic bottles)

 Sustainable growth and well known with Recycle material
certified by GRS international organisation

Standard requirement contains :

- Recycle Material
- Recycle production chain
- Social regulations
- Environment friendly / Chemical management
